

CIPA Gangsta' Rap

CIPA 2013, INSA Strasbourg by Eddie Smigiel

It's CIPA symposium pretty soon
We gotta distribute tasks before noon
So many things to do, so many people to meet
I hope I can count on you, my colleagues so sweet
And don't forget to prepare your poster
Don't worry, no problem, our beloved chief
Giv'us our daily job, we gonna be your relief
Whatever paper to review, whatever panel to screw
We gonna be your fabulous crew
There ain't nothing we won't get through

What a gentle organizing committee
What a subtle scientific committee
CIPA 2013 is gonna last forever
In our living memories, as a famous ladies and gentlemen conference

Hey guys, a few more papers to review,
A few hundreds liters of water to move
A few tons of barley to brew
I know I am demanding much, please carry on being my crutch
And don't forget to prepare your poster
Well, it ain't really the right time
I wouldn't say I don't give a dime
It doesn't suit me well
But I promised so I'll do it anyway
Though, I wouldn't want to organize CIPA every day

What a gentle organizing committee
What a subtle scientific committee
CIPA 2013 is gonna last forever
In our living memories, as a famous ladies and gentlemen conference

So, so, sorry ! I forgot to organize the tours
What did you expect ? I can't do it all by myself
Please go there and see if the place is quiet and safe
And don't forget to prepare your poster
No, frankly, this time, you abuse
If you think I have all day you lose
That thing is turning into a bad dream
I wake up in the middle of the night and I scream
CIPA, Please Mercy Daddy's turning out crazy

What a gentle organizing committee
What a subtle scientific committee

CIPA 2013 is gonna last forever
In our living memories, as a famous ladies and gentlemen conference

I want you to be there at 8 and to leave late in the night
You wear your most beautiful suit and you adjust your necktie tight
I know you die hot in your sweat but I never said it would be fun
Time to wake up you wild bunch of lazybones
By the way have you at last prepared your poster ?
Da ya really wanna know what you can do with my poster ?
I don't give a fuck of your bloody conference of gangsta
I gonna turn around, find a laser scanner in the crowd, and pull on the trigger
my life flashes, the talk I was supposed to give crashes and burns to ashes

and I hear

What a gentle organizing committee
What a subtle scientific committee
CIPA 2013 is gonna last forever
In our living memories, as a famous ladies and gentlemen conference

twice
